

# Demographics & decisions

*Bronson Trebbi, Chief Operating Officer of RDI Marketing, discusses plans with Toebben's Job Supervisor Tim Hakkila at the Milford Shopping Center in Milford, Ohio.*

**I**f an excellent employee is hard to find, finding 200+ more of them is even harder. Bronson Trebbi, Chief Operating Officer of RDI Marketing, recognized this as he sought an additional location for his growing corporation. His decision? Milford, Ohio, in Toebben Company's 20,000 square foot space at their Milford Shopping Center.

"In our field, the more markets you can pull from, the better," explains Bronson. "This location offers an excellent demographic of potential Ohio and Northern Kentucky employees with easy access to the facility."

What was Toebben like to work with on this new venture?

"Having so many people in one

area means we have higher A/C needs than most," says Bronson, "and our data and electric requirements are also challenging. The Toebben staff was open to changes and they're also good communicators. There is definitely a spirit of cooperation in helping us meet our time and budget constraints."

Does your business have similar needs for a great location and construction service? Call Toebben today to discuss your commercial, retail, office, or industrial needs.
